Founded in 2008, [NAME] Publications is dedicated to making books with an emphasis on histories and practices often marginalized in dominant art and design histories. The press facilitates the production of books by artists, designers, curators, and scholars with practices anchored in the Americas. It disseminates these titles and builds new audiences for them through exhibitions, public programs, and the salvaging of archival materials. *mel bokner (notes on value)* is made possible with the support of the Miami-Dade County Department of Cultural Affairs and the Cultural Affairs Council; the Miami-Dade County Mayor and Board of County Commissioners; Teiger Foundation; and The Jorge M. Pérez Family Foundation at The Miami Foundation.
